  Cross-functional Collaboration · Stakeholder Communication · Agile Methodologies · Remote Teamwork · Project Coordination · Time Management
- **AI & Innovation**
  AI-Assisted Design · Rapid Prototyping · Workflow Optimization · Content Structuring with AI Tools

Work Experience

Co-Founder & Product Designer (2025 - today)

Aquario - Digital products Agency

- Delivered end-to-end product design solutions for independent clients across e-commerce, SaaS platforms, and marketing landing pages, from discovery to final implementation.
- Collaborated directly with clients to define business goals, user needs, and product requirements, translating them into intuitive and high-impact digital experiences.
- Conducted user research and competitor analysis to inform design decisions and identify opportunities for improving conversion and usability.
- Designed user-centered interfaces including wireframes, high-fidelity UI, and interactive prototypes using Figma.
- Developed scalable design systems and reusable components, ensuring consistency and efficient handoff to developers.
- Partnered with developers to ensure accurate implementation, providing design specifications and supporting iteration cycles.
- Leveraged AI-powered tools to accelerate ideation, content structuring, and rapid prototyping workflows.

Logistics and Customer Service Experience (2014 - 2024)

Dell Technologies (Remote) & Mediterranean Shipping Company (Buenos Aires)

- Acted as liaison between clients and global shipping operations. Managed bookings, cargo tracking, and issue resolution across different time zones.
- Developed strong problem-solving skills and a customer-oriented mindset.
- Coordinated outbound logistics and inventory management for the Argentina market.
- Managed multiple projects simultaneously, maintaining clear communication, timelines, and stakeholder alignment in remote environments.
- Supported resolution of time-sensitive delivery issues to ensure client satisfaction.

Education

UX/UI Studies (2025)
UX/UI Design Diploma - UTN
Localization for UX Writers - Udemy

UADE University (2015)
